I have completed the **Preliminary Technical Determination** for highly erodible lands on this tract. See the enclosed NRCS-CPA-026 "*Highly Erodible Land and Wetland Conservation Determination*" form and the aerial photo for location(s).

The areas that you asked the Natural Resources Conservation Service (NRCS) to determine are Non Highly Erodible Land (**NHEL**). Fields that are NHEL have less than 1/3 of the total field acres as highly erodible soil map units and less than 50 acres of highly erodible soil map units.

This preliminary determination will become final **30** days after receipt of this letter unless you request one of the following options in writing:

- 1) A reconsideration and field visit. During the field visit we will review the basis for our determination, answer any questions you have regarding this preliminary determination, and offer an opportunity for you to provide additional information regarding this determination.
- 2) Request mediation by contacting the Iowa Mediation Service at the address below. Mediation may be used in an attempt to settle your concerns with the preliminary highly erodible lands technical determination.
